Screen Mirror on Roku

1. First, your Roku receiver and your iPhone must join the same network. You can verify your network settings with the Roku receiver.
2. Next, you'll need to make sure mirroring is allowed/set up on your Roku receiver.
3. On your Roku, go to Settings > System > Screen Mirroring.
4. Under Screen mirroring mode, verify that either Prompt or Always allow is selected, indicated by a checkmark.
5. Download the Mirror for Roku app on your iPhone from the App Store. Once it's downloaded, open the app on your phone. It will immediately prompt you to connect to your device. Find the TV you would like to connect to, select it, and hit connect.
6. The app will then prompt you to install a channel on your Roku device. You can do so by hitting the install button from your iPhone. It will automatically bring the channel up on your TV. Select Add channel on your TV. Once the channel has been added, the app on your phone should show "Channel Installed". Hit done.
7. On the app, there are several options for casting. Select "Internet". At the top of your phone is a place to type the URL. Tap in that box and type the link to access your email. Find and open your Performance Confirmation email. Click the unique link that will take you to the performance login page. Your username and password should be entered automatically, simply click the "Watch Now" button to begin.
